WE TAKE FOREST FIRES SERIOUSLY. SO SHOULD YOU.

Nearly half of wildfires in British Columbia are caused by human carelessness.

Play it safe this summer and do your part to protect our forests and communities.

- Check for bans before lighting a campfire or burning grass and yard waste. Ignoring a ban means fines or potential jail time.
- If you smoke, never toss cigarette butts out in the forest or out of your vehicle.
- Keep your campfire small and be prepared to put it out.
- Never burn in windy conditions or leave a site before the fire is fully extinguished.
- Throw water on arsonists by reporting suspicious activity to your local RCMP or BC Forest Service office.
